

The Power of Change

Student Name _____

Choice #4 Requirements

1. Choose an animal on the list of endangered species. Collect pictures of the animal and its habitat.
2. Write a short paragraph describing how this animal's habitat has changed over time. How that change has put it on the endangered species list. Make sure to include which generalization of change it represents.
 - a. Change is linked to time
 - b. Change can be positive or negative
 - c. Change can be perceived as orderly or random
 - d. Change can occur naturally or be caused by people
 - e. Change is everywhere
3. Next, propose a way to make changes that would ensure that the animal does not become extinct in the future. Be creative in the way you present your information. For example, you could do a "news" story on your animal.

Circle any technology that you plan on using for your project. If you would like your project posted on the website, you may want to choose technology that would make that possible.

PowerPoint

Digital Movie Maker

Slide Show Creator

iPod

Video Camera

CALENDAR

Step	Take home project, show parents and get signature	Write summary of your plans and choose technology	Create a rough draft of your project.	Bring final project in to share with class.
Due Date				
Check when done.
